BeatsWork

Teambuilding on a grand musical scale…as the entire group transforms into a giant percussion band.

Without doubt BeatsWork is the most exhilarating teambuilding activity to sweep the world. Using the infectious rhythms of samba, BeatsWork transforms a group of individuals into a giant percussion band – with each person playing their part, in time and on cue.

Starting in small groups with a professional percussionist, your team is taught the basics of samba beats and breaks. By using a variety of rhythm based warm up exercises, they soon move onto real instruments with each group learning the different instruments and rhythms. As confidence and ability grows the groups are brought together in preparation for a stunning and pulsating finale of epic proportions.

With BeatsWork everyone is involved. Even the most reserved characters are soon beaming from ear to ear as they stamp, beat, shake and drum in rhythm with their colleagues.

The perfect example of teamwork at its best, BeatsWork demonstrates that when individuals work in rhythm together as a team they become an unstoppable force.

As the originators of this powerful teambuilding experience we believe we are the best and most experienced providers of drum-based teambuilding. We were the first to introduce ‘corporate Samba’ to the UK and now more than 150,000 people have drummed with us – that’s 150,000 spines that have been tingled and 150,000 hearts that have beaten as one.

If creating a sense of unity and shared achievement is important to you, unleash your team on BeatsWork – it will bring out the best in them.

Key Business Benefits

High energy » Visualising the future » Creates a positive attitude » Changes attitudes » Unifies the group » Provides inspiration » Shared experience » Celebrates success
