

STREETBEAT

UNIFYING

EVENT INFO

TIME: 1-2 HRS

NUMBERS: 25-500

LOCATION: INDOORS

APPROACH: COLLABORATIVE

Teams are challenged to produce their own colourful and vibrant street carnival in just 90 minutes!

This is the ultimate urban performance challenge. Combining music, dance, choreography and comedy, teams are challenged to create their own vibrant street performance.

Unconventional, energetic and hugely entertaining, the StreetBeat experience will not be what your delegates are expecting at a corporate event. StreetBeat is lots of fun, but the messages are clear.

Initially working in groups and facilitated by talented percussionists and choreographers, the participants discover the sounds that can be produced from a range of urban instruments such as dustbin lids, industrial packaging, wheelie bins, drainpipes and yard brooms. Once they have mastered all the skills, the raw sounds and sights are moulded into a performance that will delight participants and audience alike.

Working against the clock, and with limited resources, it will take hard work, loads of teamwork and all the creative energy the group can muster to put on a memorable performance. Work gear such as high-vis jackets, gloves and hardhats are supplied to complete the visual effect.

StreetBeat is all about working together to reach a common goal. It is an experience that is guaranteed to put your team streets ahead by creating a positive team attitude and putting a smile on everyone's face.
