

## EVENT INFO

TIME: 10-30 MINS

NUMBERS: 30-1500

LOCATION: INDOORS OR OUTDOORS

APPROACH: COLLABORATIVE

**Teambuilding on a grand musical scale...as the entire group transforms into a giant percussion band.**

**Tubular Tunes** is an energetic, fun and cost-effective activity that is a fantastic way to kick-start a meeting right at the start or after a break. Energiser, ice-breaker and teambuilding session all in one, **Tubular Tunes** quickly turns any group of people into a full-blown percussion band.

Using perfectly-tuned and brightly-coloured tubular 'instruments', that vary in length, the participants are able to create music just by whacking them – with drumsticks and against each other. Combine lots of people with lots of tubes and you have all the ingredients for a percussive extravaganza and a whole lot of fun. Every time, the effect is electrifying.

**Tubular Tunes** couldn't be simpler. There is no lengthy explanation, no dividing people into teams and no breaking off into separate rooms – the participants just pull their tubes from under their chairs, follow the conductor's instructions and get down to making music.

Your delegates will be guaranteed 30 minutes of laughter, music and infectious rhythm while you will be left with an audience that is working as one and in a positive and receptive mood.

## BUSINESS BENEFITS
